

Michigan

Distribution of Anesthesia Providers (2024)

70.4% of Anesthesia Providers in Michigan are CRNAs

Map illustrates the percentage of CRNAs or MDAs of the combined total in each county.

Data Source: Anesthesia providers were identified using the Physician Compare National Downloadable file. Physician Compare includes records for each practice address of all providers who bill Medicare Part B. Those who have a practice address in multiple counties are represented in each county. Some providers who do not bill Medicare Part B may not be accurately represented such as those working exclusively for the Veteran's Administration or CRNAs practicing at rural hospitals electing cost-based reimbursement under the Medicare Part A nurse anesthesia exception.
